## 2015 Replacement Value Statement

76-544

December 14, 2015

Dear Bryan,

While each instrument we make is unique, if we were to build another instrument with the same specifications as yours, the replacement cost would be \$16,800 which includes the standard hardshell case.

To identify your instrument, refer to the serial number and the following specifications:

Series I Short Scale bass  
Walnut top and back  
Mahogany core  
Maple, Beech, and Purpleheart neck  
Vermilion fingerboard  
Mother of pearl inlays  
Vermilion peghead veneers  
Birthday: November 10, 1976

If stolen, report theft first to the police and then to us so we can post details on our website that can aid in your instrument's recovery. Please let us know if your bass ever needs servicing.

Sincerely,

Mica Wickersham Thomas  
General Manager
